

CRITICAL LIFE-SAVING RULES AT THE PORT TERMINAL

Before entering operational areas, ensure you are properly wearing the required personal protective equipment (PPE).

The visitors must not move around the facility unaccompanied. **If an area is restricted or cordoned off, DO NOT ENTER.**

Large vehicles and heavy machinery operate throughout the terminal. Always stay clear of their path and **never remain in blind spots.**

In operational areas, the use of mobile phones in a way that causes distraction is prohibited. **Safety First.**

As a visitor, follow all signs and use designated pedestrian walkways. **Traffic safety rules also apply throughout the terminal.**

Never stand under or within the operating area of a suspended load. **Stay outside exclusion zones.**

IN CASE OF EMERGENCY

Keep calm and follow the instructions of authorized personnel.

IN CASE OF EVACUATION:

ALARM → FOLLOW INSTRUCTIONS → PROCEED TO THE ASSEMBLY POINT

WELCOME

INTEGRATED MANAGEMENT SYSTEM POLICY

The Senior Management of NAPORTEC S.A.S., aware of the importance of quality, occupational health and safety, environmental protection, and supply chain security for the sustainable development of its port operations, is committed to:

- **Comply** with applicable legal and regulatory requirements, as well as customer requirements and other commitments undertaken in connection with the Integrated Management System and activities involving the transfer of containerized cargo, breakbulk cargo, and equipment maintenance and repair, including applicable national and international safety and security standards.
- **Ensure customer satisfaction** by providing efficient, safe, reliable, and high-quality port services, with a focus on continuous improvement and market competitiveness.
- **Promote continuous improvement** in the performance and effectiveness of the Integrated Management System, ensuring its proper implementation, maintenance, and strengthening.
- **Protect the environment** through pollution prevention and the control of environmental aspects arising from our operations, promoting the sustainable use of resources.
- **Provide safe and healthy working conditions** aimed at preventing occupational injuries and illnesses through hazard identification, risk assessment and control, eliminating hazards whenever possible.
- **Promote the consultation and participation of workers and their representatives**, as well as the development of their competencies, raising awareness of quality, safety, occupational health, environmental protection, and supply chain security.
- **Manage supply chain risks** by implementing effective controls that ensure the security of the port facility and contribute to the protection of national and international trade.
- **Ensure the availability of the necessary resources** to comply with this policy and achieve the objectives of the Integrated Management System.
- **Communicate, disseminate, and ensure the understanding** of this policy among all employees, contractors, and relevant interested parties, ensuring its application in all activities carried out under the organization's control.

Ec. Lidia Cevallos Salcedo
GENERAL MANAGER OF NAPORTEC S.A.S.
